COMPETITOR'S CREW

Vigorous Report From the Committee on Foreign Relations.

SPAIN'S DENIAL OF JUSTICE

President Given Extraordinary Powers to Effect the Release of the Prisoners. Senate in a Deadlock—Tariff Conference Disposed to Repeal Speaker Reed's Interference—Other Washington News.

WASHINGTON, July 15.—Senator Davis, chairman of the committee on foreign relations, has reported from that committee the following joint resolution:

That the president be empowered to take such measures as in his judgment may be necessary to obtain the release from the Spanish government of Ona Melton, Alfred O. Laborde and William Gilde and the restoration of the schooner Competitor to their owner, and to secure this he is authorized and requested to employ such means or exercise such powers as may be necessary.

The report then says: "The conduct of Spain constitutes such delay and denial of justice upon these men as to make it the duty of this government to demand reparation therefor irrespective of any act which these prisoners may have committed up to the date of their capture. Among the acts of reparation which ought to be demanded should be the release of these captives."

Secretary Evans is quoted to sustain this position. The report declares that the rights of the men have been violated and continues: "They have been tried and sentenced to death by a summary naval court martial in a proceeding which has been annulled by the appellate court of Madrid upon the ground that such a court martial had no jurisdiction whatever over them. Ten months have elapsed since their death sentence was annulled and they have not again been brought to trial."

"In our opinion these acts of delay and denial of justice, and of the infliction of injustice, vitiate and make void any right which Spain had in the beginning of this transaction to proceed criminally against any of these men. This government should demand that they should be set at liberty and the Competitor restored to her owner, as there is no evidence that the owner knows anything about the divergence of the vessel from its regular voyage to Lemon City, Fla."

CONGRESSIONAL

Senate in a Deadlock Over the Union Pacific Resolution.

WASHINGTON, July 15.—The senate was in a deadlock for several hours yesterday with business at a standstill, while calls of the senate, rollcalls and other parliamentary expedients were resorted to. It was due to the effort to secure action on the resolution of Mr. Harris of Kansas, designed to prevent the disposal of the government lien on the Union Pacific railroad under the terms of an alleged agreement. There were many rollcalls on Mr. Harris' motion to consider the resolution, quorums appearing and disappearing, and from 12 to 5 o'clock no final vote on the motion was secured. The resolution finally went over.

HOUSE PROCEEDINGS

The house passed a joint resolution for the erection of a temporary studio on the site of the future statue of General Sherman and appointed conferees on the deficiency appropriation bill.

HARBOR IMPROVEMENTS

WASHINGTON, July 15.—Major E. L. B. Davis, in charge of harbor improvements in California, reports to the war department that the breakwater at San Luis Obispo harbor is being extended 100 feet, 40 feet to high water and 150 feet to mean low water. There is an available balance of \$2,350 to continue the work. There has been, says the report, a decrease of 21,800 tons in the amount of freight entered and cleared yearly at this harbor since 1888. The work on the old dike across the old river at San Diego harbor, was completed in February. Since last year the jetty settled in place six to eight inches, but on the whole the work stands well. The total expenditures to June 30, 1897, were \$289,715; balance available \$2,784.

RECENT REED'S INTERFERENCE

WASHINGTON, July 15.—The senate conferees are disposed to resent the efforts of Speaker Reed to influence the action of the conferees. The senators are inclined to construe the speaker's participation in the proceedings as unwarranted and are apparently more determined than before his attitude was made known, to hold out for the senate figures. The conferees' force on the wool schedule, the carpet manufacturers and the wool growers have practically reached an agreement which it is presumed will be ratified by the conferees.

HANNA ON THE STRIKE

WASHINGTON, July 15.—Senator Hanna said yesterday that he had not refused to assist in the settlement of the miners' strike. He added: "No representative of the miners or any one else has asked my assistance or consulted or approached me in the matter. I regret greatly the present trouble and hope most sincerely that it will be settled amicably and by arbitration."

INDIANA POSTMASTERS

WASHINGTON, July 15.—Indiana postmasters were appointed yesterday as follows: Bly, F. M. Gordon; Boggs, town, Eliza Green; Green's Fork, W. M. Roller; Kempton, Samuel Goodnight; Vistula, W. H. Greiner; Walnut, Luther Cole; Zionsville, J. N. Harmon.

GENERAL FARNSWORTH DEAD

WASHINGTON, July 15.—General John F. Farnsworth died at his residence in this city yesterday afternoon, aged 77 years.

RECEIVED A CONSULSHIP

WASHINGTON, July 15.—The president yesterday sent to the senate the name of Joseph G. Stephens of Indiana, to be consul at Plymouth, England.

KENTUCKY GOLD DEMOCRATS.

James R. Hindman Nominated For Clerk of Court of Appeals.

LOUISVILLE, July 15.—James R. Hindman for clerk of the court of appeals. Notable and unique to a marked degree beyond any held for more than a score of years in Kentucky, was the convention which yesterday brought to Louisville from all parts of the "bloody ground" the sturdiest sons of Democratic forefathers with the purpose, as they put it in view of sustaining true Democracy and bringing back to such those who have strayed after a silver idol.

The platform after approving of the action taken last year, resulting in the Indianapolis convention, says regarding silver:

We denounce the free and unlimited coinage of silver as inevitably producing silver monometallism, and we advocate a gold standard and the coinage of silver to the requirements of commerce as offering the only means of maintaining bimetalism and denounce any attempt to fix the ratio between the metals arbitrarily by law, without reference to their commercial value, as unsafe and dangerous to public welfare and private interests.

MORE INDIAN TROUBLES.

Number of Bucks Attack a Deputy Sheriff's Residence.

MILES CITY, Mont., July 15.—The Cheyenne Indians are again making trouble for the white people near the reservation. A number of bucks, armed, attacked the home of Matt Winter, firing several shots inside the house. Mrs. Winter, children and hired man, who were in the house, fled by the rear way and escaped without injury.

Matt Winter was one of the deputy sheriffs who accompanied Sheriff Gibbs to help arrest Little Whirlwind not long ago, and it was the general opinion at that time that Matt Winter would soon die at the hands of the Cheyenne. The authorities have again asked Senator Carter to bring the matter before Secretary Bliss and see if some permanent relief from these red savages can not be obtained.

County Attorney Porter is now at the reservation. More complaints will be made and more Indians arrested, and it is hoped that the military authorities will instruct the agent to co-operate with the sheriff this time, and avoid all trouble.

REPUBLICAN CLUBS.

Kentucky Carries Off the Presidency.

ST. LOUIS, July 15.—Leonard J. Crawford of Newport, Ky., was yesterday elected president of the National Republican league. While the contest for the presidency had all the appearance of a close struggle the result can scarcely be said to have been in doubt. Two ballots were taken, the second one being necessary to verify the first. A. M. Higgins of Indiana was third in the race for president. There was no contest over the resolutions, the St. Louis platform being indorsed in all respects.

REPUBLICAN COLLEGE CLUBS.

DETROIT, July 15.—The annual meeting of the American Republican College league was held yesterday, there being 30 delegates present. A. L. Davis, the University of Michigan's candidate for the presidency, was elected by acclamation. Resolutions were adopted declaring last year's Republican victory was "a triumph of brains and intelligence over passion and prejudice."

BANKER SPAULDING.

He Meets With Another Disappointment In Judge Dunne's Court.

CHICAGO, July 15.—Charles Warren Spaulding met another disappointment in his legal battle for liberty yesterday, when Judge Danne overruled his motion to take from the jury the case in which he is charged with embezzlement \$28,000, face value, of university bonds. In his decision the court held that the position of the defense, that Spaulding was not a state officer and that he should not be prosecuted for a misdemeanor and not for embezzlement, was not a correct one. The court said that Spaulding was a state officer, appointed, it is true, by a board, but paid by the state, and the custodian of the funds of a state institution.

TWO RESERVOIRS BREAK.

Three Houses Swept Away and Seven Persons Drowned.

POUGHKEEPSIE, N. Y., July 15.—The two large reservoirs in the Fishkill mountains, which supplied water to the towns of Matteawan and Fishkill, burst their walls yesterday and the water that was released swept through the Dutchess valley, causing ruin and death.

Five bodies have been taken from the wreckage left in the wake of the flood and there are known to be two and probably three more lying somewhere beneath the piled-up debris, which is all that remains of three houses that were swept away by the torrent.

SHORT WIRINGS.

Engineers of London are on strike to the number of 25,000.

The output of flour last week at Minneapolis, Duluth, Superior and Milwaukee was 277,000 barrels.

Frank McLaughlin, one of the proprietors of the Philadelphia Times, is dead from rheumatic gout.

There are 6,000 delegates from Tennessee alone in attendance upon the Baptist Young People's union at Chattanooga.

Major Andrew Moore is dead at Louisville, Mo. He was a war veteran, being a member of the Seventy-fifth Illinois infantry.

The sales of wool in Boston, Philadelphia and New York since Jan. 1 aggregate 280,036,250 pounds, against 104,117,696 pounds for 1896.

Thomas Mixon and Thomas Harvie were taken from their homes near Clarksville, Tenn., and unceremoniously whipped by whitecaps. Thievery is charged.

Kellogg O. Gould, proprietor of the Little Rock Tribune, has been arrested for publishing obscene matter. He was bound over to the United States in the sum of \$1,000.

BRIGHT PROSPECTS

Looks as if the End of the Strike Was Near.

DEARMIT COMING TO TERMS

Labor Commissioners Succeeded in Getting Him to Agree to Co-Operate With Other Operators—Miners' Officials Also Favorable to the Commissioners' Proposition—No Disturbances Have Occurred.

PITTSBURG, July 15.—The prospect for a settlement of the great miners' strike is brighter than at any time since the struggle began and both sides are almost ready to count on a resumption of work in the near future.

The cheering announcement is made that W. P. Dearmit, president of the Cleveland Gas Coal company, whose 1,200 men have been constantly at work and without whose assistance the success of the movement would have been jeopardized, has agreed to join with the other operators in a plan for the settlement of the strike on a true uniformity basis. This result has been brought about through the efforts of the members of the joint arbitration commission who have been working assiduously to this end. Yesterday the commission called upon Mr. Dearmit and submitted their plan to which he agreed. Then the commission met the miners' officials and the proposition also met their approval.

Under the terms of the agreement Mr. Dearmit consents to sign a contract which will bring about a condition of true uniformity in the Pittsburgh district according to the plan formulated, but which failed 18 months ago. The contract provides that there shall be no company stores, honest weight, fair screens and the removal of other evils long complained of by the miners. He will sign such a contract provided 95 per cent of the operators in the Pittsburgh district become parties to it. In agreeing to the terms the miners' officials promised to use their influence to obtain the signatures of the operators to the contract and they have already begun on this work. They stipulated, however, that the proposed contract should have no immediate effect in calling off the present general suspension.

General Little of the Ohio board of arbitration said last night that if the plan is carried out it will not only affect Ohio, Indiana and Illinois, but will be a barrier against recurring troubles in the Pittsburgh district.

The miners' officials admitted that even though they had won the present strike without arbitration, the victory would have been only temporary, as the absence of a contract such as has been agreed upon would have left the door open for new grievances that were bound to manifest themselves under the present mining laws and the new ones awaiting the signature of the governor. The prospect of a settlement of the mining trouble was received by a sense of great relief on all sides and the result of the efforts of the joint commission to secure the names of the necessary 95 per cent of the operators to the agreement will be awaited with general interest.

The miners' officials last night claimed that the Canonsburg mines in the Panhandle district which have been in operation since the strike began were shut down on account of the men joining the ranks of the strikers. The district is absolutely quiet. No disturbance of any kind occurred during the day and quiet reigns in all parts of the district.

SITUATION IN EASTERN OHIO.

WHEELING, July 15.—A trip over the eastern Ohio mining region on the Baltimore and Ohio and the Cleveland, Toledo and Wheeling roads reveals an undisturbed quietness that promises to remain unbroken until the strike terminates. The coming out of the men at

the Schick mines of Bellaire took away whatever chances there were of trouble in this section. At first it was thought there would be a repetition of the last struggles of 1894. Regardless of the advance scale all of the Monongahela men are reported to be dissatisfied by a strong undercurrent, which looks as though they would soon follow Flemington's lead.

INDIANA BLOCK COAL FIELD.

BRAZIL, Ind., July 15.—There is no material change in the mining situation here in the block coal field. All the men in the semiblock mines at Clay City and Woodside are out to join the strikers. There is much speculation on the part of Brazil people and business men as to how long the strike will last. Some say two weeks, while others believe it will be four months.

DEAD AT 108 YEARS.

DECATUR, Ill., July 15.—Mrs. Annie Gipson, the oldest person in Macon county, is dead. She claimed to be 108 years old and had a son aged 65 years, with whom she made her home. Mrs. Gipson was born in Tennessee and died most of her own work up to a month ago. It was her delight to tell of her experience with the Indians in Kentucky and Tennessee. Her husband died in 1875. She was the mother of but one child.

COUNCILMAN STANDS THE DISGRACE.

ASHLAND, Wis., July 15.—R. C. Heydlauff, who has figured in a sensational forgery case, has committed suicide by shooting. Heydlauff was engrossing clerk of the Wisconsin senate in the last session of the legislature and was known throughout the state. Three weeks ago he was arrested on a charge of forging a county order for \$3,000.

PROFESSOR COPELAND LOCATED.

DELAWARE, O., July 15.—Professor Copeland, the missing high school teacher of this city, has been heard from again. Mrs. Copeland, his wife, has just received a telegram from Charles May of Chicago stating that Copeland was in his office in that city on June 6.

RUBY'S SLAYERS.

Convict Harry G. Wyatt Reveals the Names of the Murderers.

HAMILTON, O., July 15.—Harry G. Wyatt, who was taken to the penitentiary Monday for burglary, disclosed the names of three men who murdered and robbed Jesse Ruby of Dayton, May 14, 1894, at Middletown during Fordyce's circus. Ruby was hit with a coupling pin, stabbed and thrown under a show train which cut him to pieces. The names of the murderers are suppressed for the present by the authorities.

BROKE HIS NECK.

URBANA, O., July 15.—George Baker, son of Upton Baker, one of the two persons killed by the militia in this city on June 4, was instantly killed on a farm where he was working. He was walking behind the horses drawing a loaded hayfork, when a trace broke, causing one end of the singletree to fly back, which struck him on the neck and jaw, breaking his neck and causing instant death.

ILLINOIS UNIVERSITY INSTRUCTOR.

BLOOMINGTON, Ill., July 15.—Professor Chester H. Rowell of this city, eldest son of Hon. J. H. Dr. Miles' Nervine Victorious.

Physical and Mental Exhaustion Gives Way to Vigorous Activity.

REV. W. T. HOUCK, the talented pastor of Grace U. B. church, Carlisle, Penn., writes September 23, 1895: "I always enjoyed good health until 1892, at which time my duties as a clergyman were of a peculiarly trying nature, subjecting me to several severe nervous shocks which together with overwork and anxiety, impaired my general health and nervous system. Indeed I was in such a condition that the mere sight of a large congregation so worried me that I would require a day or more for me to recover from the exhaustion. It affords me great pleasure to say that Dr. Miles' Nervine and Restorative Tonic have done me untold good. I preached three times yesterday and I feel as fresh and vigorous this Monday morning as I ever felt in my life, thanks to your remedies. HOW APPLE WAS KILLED.

The Courier Journal's Account of the Sad Accident.

Charles Apple, a B. & O. S. W. passenger engineer, was almost instantly killed yesterday morning at 8:50 o'clock in the railroad yards at Thirty-first street and Cleveland avenue. Appel's engine, No. 100, was standing at the water-tank getting up steam preparatory for the run to North Vernon, Ind. He was standing at the side of his engine oiling the wheels and piston. The water-tank is near the switch and the pilot was projecting several inches over the intersection. Engine No. 6 was switching a box car into the yards and as it backed past the intersection the car struck the pilot of the passenger engine, pushing it back several feet.

Apple was leaning down and the piston, as it flew backward, struck him in the head. He fell to the ground unconscious and died five minutes later. He was carried into the dispatcher's office and Dr. Meyers, of the City Hospital, was summoned in hopes of reviving him. Several trainmen felt the engineer's pulse and found that he was dead. Coroner Hood was then notified. An examination was made by the coroner, who said that the skull had been badly fractured and that death had been caused by concussion of the brain.

The railroad officials have not yet made a thorough investigation and will lay the blame on no one until the inquest has been held, which will be Friday morning at 11 o'clock. The crew of engine No. 6 was composed of Scott Hackley, engineer, and Will Lloyd, fireman. The engine did not cross the intersection rapidly, or both engines would have been badly damaged.

A BABY'S NEEDS.

Drinking Water is the First and Most Important of Them All.

"A baby," said the head nurse in a baby's hospital ward, "needs an abundance of drinking water. Indeed, I can not understand how the little things live without it. But ice water is very injurious. It should be cool, but never chilled, and be given frequently in small quantities. A baby ought to go barefooted in summer, and by all means it should be allowed plenty of sunlight. I don't mean exposure to the direct rays of the sun, perhaps, but let it play where it can have the sunshine freely. There are some physicians who contend that a child should be stripped for an hour a day, have its head protected and be left in a strong sun bath. Like a plant, a child must have sunlight if you expect to keep it healthy and growing. Where one wishes to allow the child to carry out the doctor's prescription of a nude sun bath, it must, of course, be done in the heat of the day. It is always best to cut the hair of a delicate child. If for no other reasons, it prevents a certain amount of fretting over its toilet, and to a sick or delicate child this almost amounts to torture."

Success of a Mid-Week Bargain Day.

The Boston Traveler has inaugurated a mid-week bargain day, each Wednesday being designated as bargain day. Merchants use the Tuesday evening issues of the Traveler to announce the bargains for the following day, and the results of the experiment have greatly pleased them. The Traveler had asserted that a great many persons buy newspapers for the sake of finding out what the merchants have for sale, and the truth of this statement was corroborated by the sales of the Traveler on the Tuesday preceding the bargain day an increase in sales of some 4,000 copies being noted. One effect of the innovation has been to increase the volume of advertising and divide the volume of trade, thus relieving the merchants from the crush of the regular weekly bargain day.

RAILROAD RUMBLINGS.

Engineer Charles Apple was a member of the Brotherhood of Locomotive Firemen instead of Engineers as stated in yesterday evening's issue. Although he had been an engineer for nine years he had never transferred his membership.

The Pennsylvania lines west have hundreds of carloads of coal standing on side tracks which they will hold in readiness to move to any point on the system where needed, should the strike continue any length of time. On the Panhandle, between Crafton and Roslyn Station, over three hundred carloads of coal are sidetracked.

Three to four hundred cars a day are being transferred from the Big Four line to the Chesapeake & Ohio to be loaded at mines on the C. & O. with coal to provide against a coal famine. George Ingalls, superintendent of the coal traffic department of the C. & O. says "send along all the cars you can get and they will be loaded promptly."

First Methodist Church.

The first Methodist house of worship ever erected in Indiana is still standing two miles from Charlestown, in a fair state of preservation, notwithstanding the fact that it was built in 1802. The first quarterly meeting ever held in Indiana took place within its unplastered walls. For almost a quarter of a century this log house continued as the only one in that part of the country, but in 1825 a better house was built at Charlestown. The pioneer church was used as a place of worship regularly until 1850, when it was abandoned.

The True Remedy.

W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottle free at W. F. Peter drug store.

Work Progressing.

The work on the brick streets is progressing nicely. A few days more and the block on Chestnut street will be completed. The work on the block on Second street is also being rapidly pushed.

Business Chance.

Man with \$150, more or less, can secure legitimate, light manufacturing business in which there is no risk nor competition and from \$6 to \$8 daily profits. For personal interview see 3t J. A. White, New Lynn Hotel.

The sensational papers that are publishing columns of matter to show that mere political change has not brought immediate prosperity, and that are attacking capital in every issue, are doing more to delay better times than all other agencies combined, says Printer's Ink. Better times depend upon confidence and the free outflow of capital into industry. The sensational sheet aims to destroy confidence, and it so constantly attacks capital and capitalists that men with money become shy of investing it. And all the time it poses as the friend of labor, while attacking and breaking down the very agencies from which relief from present conditions comes.

John P. McLean's Great Newspaper.

Without a single exception, there is no newspaper in the United States that has been more successful publisher than the Cincinnati Enquirer; its proprietor, Mr. John P. McLean, has maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: "The Enquirer has no opinion to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford."

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

A LITTLE GRAVE.

Dark are the mounds where the snow blast is sweeping,
Wild is the cry of the wind on its flight,
Anguish and sorrow, her watch she is keeping,
Over the nursing alone in the night!

Alone in the night and the dark that went creeping
Out of her arms but a daybreak ago!
Anguish with sorrow, her watch she is keeping,
Far would she follow through storm and through snow.

Kay, tender mother, have done with your weeping,
Not in the night and the dark has he part,
His all of bright heaven save when he is sleeping
And dreaming of heaven, warm, warm in your heart.

—Harper's Bazar.

THE MAJOR'S ROMANCE.

It turned on sixteen to one, but was not Political.

Major Culpeper is not his name, but that will suffice for the little romance involved.

He is a courtly old beau of Virginia breeding, and he is also a courtly old bachelor, quite old enough to know better, and he does know better, but with him knowledge is not power, and he is absolutely lacking in strength to keep out of the clutches of Cupid.

The last fair charmer was an unusual pretty Washington girl of the sweet sixteen type, and the major felt for a time that he was a sure winner, but he was badly left at the wire.

Some time after the sad event and when the major, whose recuperative powers are famous, was convalescent he was talking with a friend—a Star reporter—on the subject of ladies and society and that sort of thing.

"By the way," said the friend, "you don't go out as much as you did?"

"Well, now," responded the major, attempting to dodge the issue, "you see I've retired, so to speak."

"Given up society entirely?"

"No, not exactly, but heading that way."

"But there was one place that caught you quite frequently. What has become of that?"

"The major smiled reminiscently and began to recover his spirits.

"Oh!" he laughed. "She was a pretty girl, wasn't she? You know, I liked that girl."

"So I heard. Why did you give her up?"

"We differed on the 16 to 1 question."

"Great Scott, major!" exclaimed the friend. "You don't mean to say you let a political issue interfere with a love affair?"

"Well, no; not exactly," hesitated the major. "You see, she was 16, and I was one who was old enough to have known I hadn't a ghost of a show."

"And now?" queried the friend.

"The major drew himself up proudly, almost youthfully.

"Thank heaven," he smiled, "I wasn't too old to learn."—Washington Star.

BUSINESS NOTES:

M. S. Benter and wife, of Aurora, were here last evening on business.

William Acker of the Hominy Mill, came home last night from a business trip to Louisville.

John Persinger, of near Shields, came up last evening to arrange for storing his wheat in the Blish elevators.

The Ebner ice company shipped two cars of their fine clear ice to Washington Tuesday night and one to Bedford last night.

E. S. Crabb is threshing wheat today on his Hometown farm and also on his home farm. It is turning out much better than expected.

Edward Wheeler, the big grain dealer of Sardinia, who purchased the G. H. Anderson interest up there spent some time in the city last evening looking through the Blish Mill and calling on Mr. Anderson.

Traut Officers Districts.

In accordance with the compulsory education law Jackson county will have three traunt officers to enforce the provisions of the law. The city of Seymour will compose one district, Jackson, Redding, Hamilton, Washington, Grassy Fork and Vernon townships another, and Salt Creek, Owen, Carr, Driftwood and Brownstown townships the third district. The traunt officers will likely be appointed within a few days.

Result of an "X"-Ray Burn.

George F. McCulloch, of Muncie, who succeeded John K. Gowdy as chairman of the republican state central committee, is at a sanitarium in Indianapolis and likely soon to lose his left leg on account of an "X"-ray burn several months ago. Blood poisoning has set in, and even worse consequences are to be feared. McCulloch submitted to an "X"-ray experiment on account of trouble he had been having with his leg and in the experiment his knee was burned by the cathode rays. The burn refused to heal.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. J. B. Thompson and wife was called to Jonesville last Tuesday to attend the funeral services of John Thompson's child.

It is a little late but the K. of P. boys of this place want to express their gratitude to the people of Whites Chapel and Spraytown for the kind and courteous treatment they gave them on decoration day.

We would like to look into the pleasant face of some one who has never had any derangement of the digestive organs. We see the drawn and unhappy faces of dyspeptics in every walk of life. It is our national disease, and nearly all complaints spring from this source. Remove the stomach difficulty and the work is done.

Dyspeptics and pale, thin people are literally starving, because they don't digest their food. Consumption never develops in people of robust and normal digestion. Correct the wasting and loss of flesh and we cure the disease. Do this with food.

The Shaker Digestive Cordial contains already digested food and is a digester of food at the same time. Its effects are felt at once. Get a pamphlet of your druggist and learn about it.

BRIGANDS AT WORK.

Freebooters on Virginia-Kentucky Border and at Pond Gap.

SERGEANT, Ky., July 15.—Travelers arriving here from Pond Gap, on the top of the Cumberland mountains, and on the Kentucky-Virginia border, state that brigands have again taken possession of the gap, and are robbing and murdering as of old. A traveling man, who was lately waylaid, has offered a reward for the robbers. Rewards have also been offered by the states of Virginia and Kentucky.

At one time, when the robbers held sway, troops were sent to the gap, and it is thought such a procedure may be necessary at the present time. Pools of blood have been noticed by travelers, and many stories are told of murders and robberies.

NEW ORDER.

Citizens of Gibara Must Keep Their Lamps Burning.

HAVANA, via Key West, July 15.—Official advice state that a band of insurgents approached Gibara on the night of July 6, and placed a dynamite bomb upon the railroad track. They lay in wait until the next morning when the bomb was exploded by an electrical device, wrecking an engine and one car. The engineer of the locomotive was killed and the fireman wounded, as were also a sergeant and two others.

The military commander of the place at once issued an order that every resident shall place a lighted lamp in front of his house, and that these lamps shall be kept burning every night in order to prevent the insurgents entering town under cover of darkness.

IN BANKERS' ROW.

Z. T. Lewis, Urbana Bond Forger, Will Be Given Office Work.

COLUMBUS, O., July 15.—Z. T. Lewis, the bond forger of Urbana, was given a good cell in the bankers' row and will be placed at work in one of the offices of the institution as soon as he gets used to the place. He seems to take his incarceration very calmly, and looked around on entering the prison with evident interest. It is said that his wife may soon come to this city, to be near him.

Doesn't Owe a Cent.

EDWARDSVILLE, Ills., July 15.—Madison county is making extensive preparations for a unique celebration here Sept. 15. The county has paid every cent of its indebtedness, and the people are so elated with their emancipation from debt that they will indulge in a grand jubilation.

PRAYING BICYCLES.

Japanese Attach Prayer Wheels to the Hubs of Their Machines.

The bicycle is now employed to aid the pious Buddhist in praying with greater ease, but yet, as he hopes, with great effect. It is from the ingenious and enterprising country of Japan that this new departure is reported.

The Buddhist has always done his praying with the assistance of a wheel. The prayers are placed inside the wheel, which turns round, following the direction of the sun, and delivers up to heaven the prayers of the owner, or of all whose thoughts are fixed upon it. Some enormous wheels are capable of praying for thousands of people. This mode of worship may seem somewhat irresponsible to western people, but the Buddhist, who is a subtle reasoner, would be able to explain why it is satisfactory.

In various parts of the vast territory in which the Buddhist faith is held different motive powers are used in these prayer wheels. Some humble persons turn the wheel by hand, but not if they can help it. On the hills of Tibet, a great stronghold of pure Buddhism, the wheels are usually so built that the wind turns them. In other places they are moved by water power.

But it is obvious that wind must fail occasionally and that this may happen when the Buddhist is particularly in need of copious prayer. Water power, too, is often lacking.

So the ingenious Jap now attaches a small prayer wheel to the hub of his bicycle, and when he takes a ride he combines worship with recreation. By giving a glance at his pedometer he can tell just how much praying he has done. He can also keep an accurate daily record, which will enable him to tell after a number of years just how much prayer stands to his credit. In this way Buddhism seems to have given a zest to bicycling which no other religion can supply.—New York Journal.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy, affords every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness.

Physical and Mental Exhaustion Gives Way to Vigorous Activity.

REV. W. T. HOUCK, the talented pastor of Grace U. B. church, Carlisle, Penn., writes September 28, 1895: "I always enjoyed good health until 1892, at which time my duties as a clergyman were me to several severe nervous shocks which together with overwork and anxiety, impaired my general health and nervous system. Indeed I was in such a condition that the mere sight of a large congregation so wearied me that I would require a day or more for me to recover from the exhaustion. It affords me great pleasure to say that Dr. Miles' Restorative Nervine and Restorative Tonic have done me untold good. The funeral of the late Charles Apple will take place at 2 o'clock tomorrow afternoon from the residence on East Second street. Hermon Lodge No. 44 K. of P. will have charge assisted by the Brotherhood of Locomotive Firemen. Religious services by Rev. J. M. Baxter. Interment in Riverview cemetery.

To reach the highest standard of health, nature demands the utmost regularity of the bowels. The best medicine to urge nature to do its duty and give good health is Dr. Bull's Pills.

You may hunt the world over and you will not find another medicine equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. It is pleasant, safe and reliable. For sale by C. W. Milhouse.

Rev. Albert Ogle, of Indianapolis, and who has been conducting religious meetings in various parts of the "Pocket" came here and left for home this morning.

Mr. C. L. Hasbrouck, a druggist at Mendon, Mich., says all of the good testimonials that have been published by the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy could be duplicated in that town. For sale by C. W. Milhouse.

Stop drugging yourself with quick nostrums or "cures." Get a well-known pharmaceutical remedy that will do the work. Catarrh and Cold in the head will not cause suffering if Ely's Cream Balm is used. Druggist will supply 10c trial size or 50c full size. We mail it.

ELY BROS., 55 Warren st N. Y. City
Rev. John Reid, Jr., of Great Falls, recommended Ely's Cream Balm to me. I can emphasize his statement, "It is a positive cure for catarrh if used as directed."—Rev. Francis W. Pooler, Pastor Central Pres. church, Helena, Mont.

"Last summer one of our grand children was sick with a severe bowel trouble," says Mrs. E. G. Gregory, of Fredericktown, Mo. "Our doctor's remedy had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief." For sale by C. W. Milhouse.

HOW APPLE WAS KILLED.

The Courier Journal's Account of the Sad Accident.

Charles Apple, a B. & O. S. W. passenger engineer, was almost instantly killed yesterday morning at 8:50 o'clock in the railroad yards at Thirty-first street and Cleveland avenue. Apple's engine, No. 100, was standing at the water-tank getting up steam preparatory for the run to North Vernon, Ind. He was standing at the side of his engine oiling the wheels and piston. The water-tank is near the switch and the pilot was projecting several inches over the intersection. Engine No. 6 was switching a box car into the yards and as it backed past the intersection the car struck the pilot of the passenger engine, pushing it back several feet.

Apple was leaning down and the piston, as it flew backward, struck him in the head. He fell to the ground unconscious and died five minutes later. He was carried into the dispatcher's office and Dr. Meyers, of the City Hospital, was summoned in hopes of reviving him. Several trainmen felt the engineer's pulse and found that he was dead. Coroner Hood was then notified. An examination was made by the coroner, who said that the skull had been badly fractured and that death had been caused by concussion of the brain.

The railroad officials have not yet made a thorough investigation and will lay the blame on no one until the inquiry has been held, which will be Friday morning at 11 o'clock. The crew of engine No. 6 was composed of Scott Hackley, engineer, and Will Lloyd, fireman. The engine did not cross the intersection rapidly, or both engines would have been badly damaged.

PERSONALS.

Elder Thomas Jones is no better today.
Rev. W. J. Stewart's babe is very sick with cholera infantum.

A BABY'S NEEDS.

Drinking Water is the First and Most Important of Them All.

"A baby," said the head nurse in a baby's hospital ward, "needs an abundance of drinking water. Indeed, I can not understand how the little things live without it. But ice water is very injurious. It should be cool, but never chilled, and be given frequently in small quantities. A baby ought to go barefooted in summer, and by all means it should be allowed plenty of sunlight. I don't mean exposure to the direct rays of the sun, perhaps, but let it play where it can have the sunshine freely. There are some physicians who contend that a child should be stripped for an hour a day, have its head protected and be left in a strong sun bath. Like a plant, a child must have sunlight if you expect to keep it healthy and growing. Where one wishes to allow the child to carry out the doctor's prescription of a nude sun bath, it must, of course, be done in the heat of the day. It is always best to cut the hair of a delicate child. If for no other reasons, it prevents a certain amount of fretting over its toilet, and to a sick or delicate child this almost amounts to torture."

Success of a Mid-Week Bargain Day.

The Boston Traveler has inaugurated a mid-week bargain day, each Wednesday being designated as bargain day. Merchants use the Tuesday evening issues of the Traveler to announce the bargains for the following day, and the result of the experiment have greatly pleased them. The Traveler had asserted that a great many persons buy newspapers for the sake of finding out what the merchants have for sale, and the truth of this statement was corroborated by the sales of the Traveler on the Tuesday preceding the bargain day an increase in sales of some 4,000 copies being noted. One effect of the innovation has been to increase the volume of advertising and divide the volume of trade, thus relieving the merchants from the crush of the regular weekly bargain day.

Hot Weather Helps.

Keep shady.
Do not worry; it won't last long.
Try a grape phosphate; it's cooling.
Or an ice phosphate.
Better still a lemon phosphate.
Take a bath in sea water.
By placing a handful of
Sea salt in the bath tub.
After bathing use talcum.

RAILROAD RUMBLINGS.

Engineer Charles Apple was a member of the Brotherhood of Locomotive Firemen instead of Engineers as stated in yesterday evening's issue. Although he had been an engineer for nine years he had never transferred his membership.

The Pennsylvania lines west have hundreds of carloads of coal standing on side tracks which they will hold in readiness to move to any point on the system where needed, should the strike continue any length of time. On the Panhandle, between Crafton and Roslyn Station, over three hundred carloads of coal are sidetracked.

Three to four hundred cars a day are being transferred from the Big Four line to the Chesapeake & Ohio to be loaded at mines on the C. & O. with coal to provide against a coal famine. George Ingalls, superintendent of the coal traffic department of the C. & O., says "send along all the cars you can get and they will be loaded promptly."

First Methodist Church.

The first Methodist house of worship ever erected in Indiana is still standing two miles from Charlestown, in a fair state of preservation, notwithstanding the fact that it was built in 1892. The first quarterly meeting ever held in Indiana took place within its unplastered walls. For almost a quarter of a century this log house continued as the only one in that part of the country, but in 1825 a better house was built at Charlestown. The pioneer church was used as a place of worship regularly until 1850, when it was abandoned.

The True Remedy.

W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottle free at W. F. Peter drug store.

Work Progressing.

The work on the brick streets is progressing nicely. A few days more and the block on Chestnut street will be completed. The work on the block on Second street is also being rapidly pushed.

Business Chance.

Man with \$150, more or less, can secure legitimate, light manufacturing business in which there is no risk nor competition and from \$6 to \$8 daily profits. For personal interview see 3t J. A. WHITE, New Lynn Hotel.

The sensational papers that are publishing columns of matter to show that mere political change has not brought immediate prosperity, and that are attacking capital in every issue, are doing more to delay better times than all other agencies combined, says Printer's Ink. Better times depend upon confidence and the free outflow of capital into industry. The sensational sheet aims to destroy confidence, and it so constantly attacks capital and capitalists that men with money become shy of investing it. And all the time it pores as the friend of labor, while attacking and breaking down the very agencies from which relief from present conditions comes.

John P. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; and a more successful publisher than its proprietor, Mr. John P. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: 'The Enquirer has no opinion to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.'

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

A LITTLE GRAVE.

Dark are the mounds where the snow blast is sweeping,
Wild is the cry of the wind on its flight,
Cold is the drift that the north wind is heaping
Over the nursing alone in the night!

Alone in the night and the dark that went creeping
Out of her arms but a daybreak ago!
Anguished with sorrow, her watch she is keeping,
Far would she leave her watch when through snow.

Kay, tender mother, have done with your weeping,
Not in the night and the dark has he part,
He all of bright heaven saw when he was sleeping
And dreaming of heaven, warm, warm in your heart.

—Harper's Bazar.

THE MAJOR'S ROMANCE.

It Turned on Sixteen to One, but Was Not Political.

Major Culpeper is not his name, but that will suffice for the little romance involved.

He is a courtly old beau of Virginia breeding, and he is also a courtly old bachelor, quite old enough to know better, and he does know better, but with him knowledge is not power, and he is absolutely lacking in strength to keep out of the clutches of Cupid.

The last fair character was an unusually pretty Washington girl of the sweet sixteen type, and the major felt for a time that he was a sure winner, but he was badly left at the wire.

Some time after the sad event and when the major, whose recuperative powers are famous, was convalescent he was talking with a friend—a Star reporter—on the subject of ladies and society and that sort of thing.

"By the way," said the friend, "you don't go out as much as you did?"

"Well, now," responded the major, attempting to dodge the issue, "you see I've retired, so to speak."

"Given up society entirely?"

"No, not exactly, but heading that way."

"But there was one place that caught you quite frequently. What has become of that?"

The major smiled reminiscently and began to recover his spirits.

"Oh!" he laughed. "She was a pretty girl, wasn't she? You know, I liked that girl."

"So I heard. Why did you give her up?"

"We differed on the 16 to 1 question."

"Great Scott, major!" exclaimed the friend. "You don't mean to say you let a political issue interfere with a love affair?"

"Well, no; not exactly," hesitated the major. "You see, she was 16, and I was one who was old enough to have known I hadn't a ghost of a show."

"And now?" queried the friend.

"The major drew himself up proudly, almost youthfully.

"Thank heaven," he smiled, "I wasn't too old to learn."—Washington Star.

BUSINESS NOTES.

M. S. Benter and wife, of Aurora, were here last evening on business.

William Acker of the Hominy Mill, came home last night from a business trip to Louisville.

John Persinger, of near Shields, came up last evening to arrange for storing his wheat in the Blish elevators.

The Ebner ice company shipped two cars of their fine clear ice to Washington Tuesday night and one to Bedford last night.

E. S. Crabb is threshing wheat today on his Hometown farm and also on his home farm. It is turning out much better than expected.

Edward Wheeler, the big grain dealer of Sardinia, who purchased the G. H. Anderson interest up there spent some time in the city last evening looking through the Blish Mill and calling on Mr. Anderson.

Truant Officers Districts.

In accordance with the compulsory education law Jackson county will have three truant officers to enforce the provisions of the law. The city of Seymour will compose one district, Jackson, Redding, Hamilton, Washington, Grassy Fork and Vernon townships another, and Salter Creek, Owen, Carr, Driftwood and Brownstown townships the third district. The truant officers will likely be appointed within a few days.

Result of an "X"-Ray Burn.

George F. McCulloch, of Muncie, who succeeded John K. Gowdy as chairman of the republican state central committee, is at a sanitarium in Indianapolis and likely soon to lose his left leg on account of an "X"-ray burn several months ago. Blood poisoning has set in, and even worse consequences are to be feared. McCulloch submitted to an "X"-ray experiment on account of trouble he had been having with his leg and in the experiment his knee was burned by the cathode rays. The burn refused to heal.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address:

Mr. and Mrs. Ben Tanner, of near Seymour was visiting in the family of Wm. Wilkerson last Sunday.

J. B. Thompson and wife was called to Jonesville last Tuesday to attend the funeral services of John Thompson's child.

It is a little late but the K. of P. boys of this place want to express their gratitude to the people of Whites Chapel and Spraytown for the kind and courteous treatment they gave them on decoration day.

We would like to look into the pleasant face of some one who has never had any derangement of the digestive organs. We see the drawn and unhappy faces of dyspeptics in every walk of life. It is our national disease, and nearly all complaints spring from this source. Remove the stomach difficulty and the work is done.

Dyspeptics and pale, thin people are literally starving, because they don't digest their food. Consumption never develops in people of robust and normal digestion. Correct the wasting and loss of flesh and we cure the disease. Do this with food.

The Shaker Digestive Cordial contains already digested food and is a digester of food at the same time. Its effects are felt at once. Get a pamphlet of your druggist and learn about it.

BRIGANDS AT WORK.

Freebooters on Virginia-Kentucky Border and at Point Gap.

SERGEANT, E. J., July 15.—Travelers arriving here from Point Gap, on the top of the Cumberland mountains, and on the Kentucky-Virginia border, state that brigands have again taken possession of the gap, and are robbing and murdering as of old. A traveling man, who was lately waylaid, has offered a reward for the robbers. Rewards have also been offered by the states of Virginia and Kentucky.

At one time, when the robbers held sway, troops were sent to the gap, and it is thought such a procedure may be necessary at the present time. Pools of blood have been noticed by travelers, and many stories are told of murders and robberies.

NEW ORDER.

Citizens of Gibara Must Keep Their Lamps Burning.

HAVANA, via Key West, July 15.—Official advice state that a band of insurgents approached Gibara on the night of July 6, and placed a dynamite bomb upon the railroad track. They lay in wait until the next morning when the bomb was exploded by an electrical device, wrecking an engine and one car. The engineer of the locomotive was killed and the fireman wounded, as were also a sergeant and two others.

The military commander of the place at once issued an order that every resident shall place a lighted lamp in front of his house, and that these lamps shall be kept burning every night in order to prevent the insurgents entering town under cover of darkness.

IN BANKERS' ROW.

Z. T. Lewis, Urbana Bond Forger, Will Be Given Office Work.

COLUMBUS, O., July 15.—Z. T. Lewis, the bond forger of Urbana, was given a good cell in the bankers' row and will be placed at work in one of the offices of the institution as soon as he gets used to the place. He seems to take his incarceration very calmly, and looked around on entering the prison with evident interest. It is said that his wife may soon come to this city, to be near him.

Doesn't Owe a Cent.

EDWARDSVILLE, Ill., July 15.—Madison county is making extensive preparations for a unique celebration here Sept. 15. The county has paid every cent of its indebtedness, and the people are so elated with their emancipation from debt that they will indulge in a grand jubilation.

PRAYING BICYCLES.

Japanese Attach Prayer Wheels to the Hubs of Their Bicycles.

The bicycle is now employed to aid the pious Buddhist in praying with greater ease, but yet, as he hopes, with great effect. It is from the ingenious and enterprising country of Japan that this new departure is reported.

The Buddhist has always done his praying with the assistance of a wheel. The prayers are placed inside the wheel, which turns round, following the direction of the sun, and delivers up to heaven the prayers of the owner, or of all whose thoughts are fixed upon it. Some customers who are capable of praying for thousands of people. This mode of worship may seem somewhat irresponsible to western people, but the Buddhist, who is a subtle reasoner, would be able to explain why it is satisfactory.

In various parts of the vast territory in which the Buddhist faith is held different motive powers are used in these prayer wheels. Some humble persons turn the wheel by hand, but not if they can help it. On the hills of Tibet, a great stronghold of pure Buddhism, the wheels are usually so built that the wind turns them. In other places they are moved by water power.

But it is obvious that wind must fail occasionally and that this may happen when the Buddhist is particularly in need of copious prayer. Water power, too, is often lacking.

So the ingenious Jap now attaches a small prayer wheel to the hub of his bicycle, and when he takes a ride he combines worship with recreation. By giving a glance at his pedometer he can tell just how much praying he has done. He can also keep an accurate daily record, which will enable him to tell after a number of years just how much prayer stands to his credit. In this way Buddhism seems to have given a zest to bicycling which no other religion can supply.—New York Journal.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, relieves every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists at price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness.
